EXPERIENCE

FRONTEND DEVELOPER

Barcelona/Remote

Labelgrup Networks

01/2022 - Present

As a Frontend Developer, I specialize in leveraging cutting-edge technologies to design and implement intuitive user interfaces for ERP systems tailored to the pharmaceutical sector. My role involves the proficient use of React to create responsive, high-performance web applications that meet the dynamic needs of our clients. I am also responsible for overseeing the code quality of junior developers, ensuring adherence to best practices and coding standards. Additionally, I effectively utilize project management and documentation tools such as JIRA and Confluence to streamline development processes and enhance team collaboration.

FRONTEND FREELANCE

Barcelona/Remote

Freelance

06/2021

Following the completion of an intensive Frontend Development bootcamp with a focus on React, I embarked on a freelance career where I collaborated on several projects and developed personal projects. This period allowed me to apply my skills in real-world scenarios, contributing to diverse web applications ranging from e-commerce platforms to custom content management systems.

EDUCATION

SOFTWARE DEVELOPMENT

UOC University

Present

Pursuing a comprehensive software development program at the Universitat Oberta de Catalunya (UOC), focusing on acquiring a deep understanding of both fundamental and advanced concepts in software engineering.

FRONTEND DEVELOPMENT BOOTCAMP

Barcelona It-Academy

2021

Completed an intensive Frontend Development bootcamp with a focus on React, where I acquired hands-on experience in building scalable, efficient web applications. This rigorous program covered essential frontend technologies, including HTML, CSS, JavaScript, and React.js.
